Budburst-Nativars Pollinator Observation Data Sheet

1. Name of observer(s): ________________________________
   Location: ____________________________________________
   Date: __________________________ Temperature: ________ °F
   Cloud cover (check one): □ Sunny □ Mostly Sunny □ Partly Sunny □ Cloudy

2. Select one flowering plant in the Budburst-Nativars research garden to observe.
   Full plant name: ______________________________________
   Plant nickname: _______________________________________
   Plant height: __________ cm  Number of open flowers: ________________
   Flowering stage (check one): □ Early few (<5%) flowers emerged
                                 □ Middle many flowers emerged
                                 □ Late most (>95%) flowers wilted/fallen off

3. For 10 minutes, observe your plant and count the number of pollinators that visit open flowers from the groups below. Each time a pollinator visits an open flower, make a tally mark in the appropriate box below. If you are not sure what group the pollinator belongs to, record under “Not sure”.
   Start time: ______________ am / pm  End time: ______________ am / pm
